A future-ready 6-12 STEM
dedicated magnet school experience
for young innovators, explorers, and
entrepreneurs located within the
Angeline community.

ANGELINE
ACADEMY OF INNOVATION

aai.pasco.k12.fl.us

Use the power of technology to take charge of your learning.

Powered by strong community and industry partnerships, and an emphasis on science, technology and engineering, Angeline Academy of Innovation will immerse students in real-world learning through design challenges and experiences that allow students to make meaningful connections with the rigorous core instruction.

Students will graduate with industry certification, and have opportunities to earn college credit through Advanced Placement® and dual enrollment coursework. These pathways will equip students to enter high-wage, high-skill careers or pursue advanced degrees with a solid knowledge base and practical experience. Strong partnerships with local industry leaders will offer students internships and externships to further their readiness for future success.

Angeline Academy of Innovation is proud to offer the following career academies and pathways:

Biodesign

Computer Science and Applied Cybersecurity

Engineering and Applied Robotics

Entrepreneurship

Angeline Academy of Innovation will also offer extracurricular activities, including clubs, service organizations, and a carefully-selected competitive sports program.
